

CHEMNITZ IS A GROWING INDUSTRIAL AND TECHNOLOGICAL CITY

↗ Location presentation 08/2024

CHEMNITZ
KULTURHAUPTSTADT
EUROPAS 2025

VISION

Chemnitz is an industrial and technological city that is growing sustainably

MISSION

Chemnitz – Simply. Moving. Faster.

DETAILS

LIVELY, LIKEABLE, LIFE-LOVING:
OUR COLOURFUL CITY COMMUNITY!

251,485 inhabitants

(31.12.2023)

Third-largest city in eastern Germany

(Berlin excepted)

A place where **1.4 million** people in the region live and work (31.12.2022)

€9,311 million total GDP in the city of Chemnitz

(31.12.2021)

€38,199 GDP per inhabitant

(31.12.2021)

€21,998 disposable income per inhabitant

(31.12.2021)

€153 million income from trade tax 2023

(31.12.2023)

Chemnitz is one of the **10 best major cities to live in** in Germany!

Prognos city ranking 2024:
Chemnitz achieved 10th place out of 71 major cities assessed (dynamic ranking 2nd place).

High quality of life thanks to:

- large number of kindergarten places
- above-average percentage of children in childcare
- affordable rents
- dynamic labour market
- steadily rising average wage

TOP 10

Funding from the federal government, the Free State of Saxony and the city totalling around **€71 million** plus additional income from sponsorship and subsidies

- **30 infrastructure projects** throughout the city, e.g. the “Hartmannfabrik” factory, the district park on the Pleißenbach, City on the River, the makers’ space “Stadtwirtschaft”, and many more.
- **Approx. 2 million visitors** expected during the Capital of Culture year
- **38 municipalities** from Central Saxony, the Erzgebirge (Ore Mountains) and the district of Zwickau form the cultural region together with Chemnitz
- **Flagship projects:**
 - Makers, Business and Arts
 - #3000Garages
 - Purple Path art and sculpture trail
 - Living Neighbourhood (“gelebte Nachbarschaft”)

Chemnitz is European Energy Award Gold Municipality

Strong commitment to climate protection:

- Awarded the European Energy Award (eea) in gold for the third time in November 2023
- Renewable energies
Municipal heat planning
- EU INTERLACE project to strengthen the restoration of urban ecosystems

An aerial photograph of a city park in Chemnitz, Germany. A river flows through the center, bordered by lush green grass and young trees. A wide, light-colored path runs alongside the river, where several people are walking and cycling. In the background, a mix of modern and traditional buildings, including a prominent brick building with a tall chimney, are visible under a clear blue sky.

CLIMATE
PROTECTION

Chemnitz is **Solar Capital 2022**

Intensive climate protection work:

- Development of solar potential on various suitable sites
- With a current installed capacity of 117 megawatts of photovoltaic systems, Chemnitz exceeds the national average.
- Regular energy dialogue highlights innovations and opportunities to increase efficiency within the energy and heating transition

MOBILITY

The Chemnitz model is a flagship public transport project

By linking the tram and railway tracks, the Chemnitz model offers through-connections without the need to change lines between the regional centre of Chemnitz and the surrounding area .

Inbound commuters
52,472
(30.06.2022)

BROADBAND COVERAGE

Chemnitz offers above-average coverage with fast internet. By 2027, full coverage with closure of the gaps in the white and grey areas will be completed.

- **70%** of companies in Chemnitz have access to at least **1,000 MBit/s** (Saxony: 55%)
- **89%** of private households in Chemnitz have access to at least **1,000 MBit/s** (Saxony: 61%)

SURFING AT THE HIGHEST LEVEL

- 8,455 students from 87 countries (01.11.2023)
- 97 degree programmes in total
- 8 faculties
- 25 institutes
- 170 professorships (01.12.2023)
- 3rd place among the most popular universities in Germany according to the StudyCheck.de ranking

Chemnitz University of Technology won the **StudyCheck Award** in 2023 and 2024.

Recommendation rate of **97%**

Top 10 in the degree programmes **industrial engineering** and **mechanical engineering**

Most popular university in eastern Germany

UNIVERSITY OF TECHNOLOGY

Fraunhofer Institute for Electronic Nano Systems (ENAS)

- Smart systems integration using micro- and nanotechnologies

Fraunhofer Institute for Machine Tools and Forming Technology (IWU)

- Leading institute for resource-efficient production

Sächsisches Textilforschungsinstitut e. V. (Saxon textile research institute)

- Textile recycling, tech nonwovens and fabrics as lightweight components

Chemnitz is a centre for microsystems technology, sensor technology, textile research, mobility and hydrogen

RESEARCH AND DEVELOPMENT

INNOVATION ON THE TRACK

Development of forward-looking technologies for rail transport:

- Rail vehicles with **leading-edge technology** for the whole world
- First self-driving tram “**SmarTram**” takes to the tracks in Chemnitz
- Development of Europe’s first **hydrogen tram** in Chemnitz

A history of mobility: Chemnitz was the cradle of locomotive construction with engineer and entrepreneur Richard Hartmann. Germany’s first automotive group, Auto Union, started its production in Chemnitz.

Networks and clusters as enablers for industry

- National and international networking with high visibility
- Pooling of interests
- Targeted and successful project development
- Technology centres, especially for SMEs and start-ups
- Exchange of knowledge and experience
- Distribution and provision of resources
- High added value, favourable offers especially for SMEs

INNOVATIONSVERBUND
MASCHINENBAU SACHSEN

PRODUCTS FROM CHEMNITZ

- **scia Systems:** world market leader for ultra-precise processing with ion beam and plasma technologies from microchips to optics in space telescopes
- **Staffbase:** leading platform for internal communication, first unicorn in eastern Germany
- **Blocz:** leading international manufacturer of bouldering equipment
- **CAC Engineering:** world-leading technology provider for e-fuels
- **3D Micromac:** laser micromachining for the manufacturing of complex AR glasses
- **IMK Engineering:** XXL electric tunnelling machine
- **CADA:** Chemnitz Automated Driving Alliance, Germany's only network of innovative technology companies in the field of automated driving

Chemnitz has space for ideas!

- **Historic industrial neighbourhoods** are developing into **modern spaces for working and living**
- Young companies and start-ups are locating here
- Central neighbourhoods in **prime locations** with excellently developed infrastructure
- Well-networked environment with a dynamic corporate landscape and **strong industry clusters**
- Attractive rental and interior design options in established structures

NEIGHBOURHOODS

With the planned hydrogen centre, Chemnitz is on its way to becoming a leading hydrogen location in Germany.

- A total area of 9 hectares
- Excellent opportunities for locating companies specialising in research and development of new technologies
- Direct vicinity to Chemnitz University of Technology & the Fraunhofer Institutes IWU & ENAS
- Future location of the HIC hydrogen centre and hydrogen innovation cluster
 - Cooperation between Chemnitz University of Technology, City of Chemnitz, HZwo e. V. and businesses
 - €87.5 million in subsidies

HYDROGEN CAMPUS

LIVING

- **A diverse and high-quality housing market** offering attractive terms
 - Ultra-modern apartments and industrial heritage lofts in prime locations
 - One of the largest cohesive art nouveau neighbourhoods in Europe
 - Refurbished residential complexes in eastern modernism style
- **Ample living space** even with a growing population

Average net basic asking rent
without heating in Chemnitz: **€5.50 per m²**

Dresden: €8.50 per m²
Leipzig: €8.50 per m²
Germany: €9.66 per m² (2022)

Average purchase price for
plots ready for construction for detached
houses in Chemnitz: **€135 per m²** (2024)

mid-range residential neighbourhood: €83 per m²
good residential neighbourhood: €105 per m²
upscale residential neighbourhood: €183 per m²
(2024)

LIVING SPACE

SMALL BIG CITY

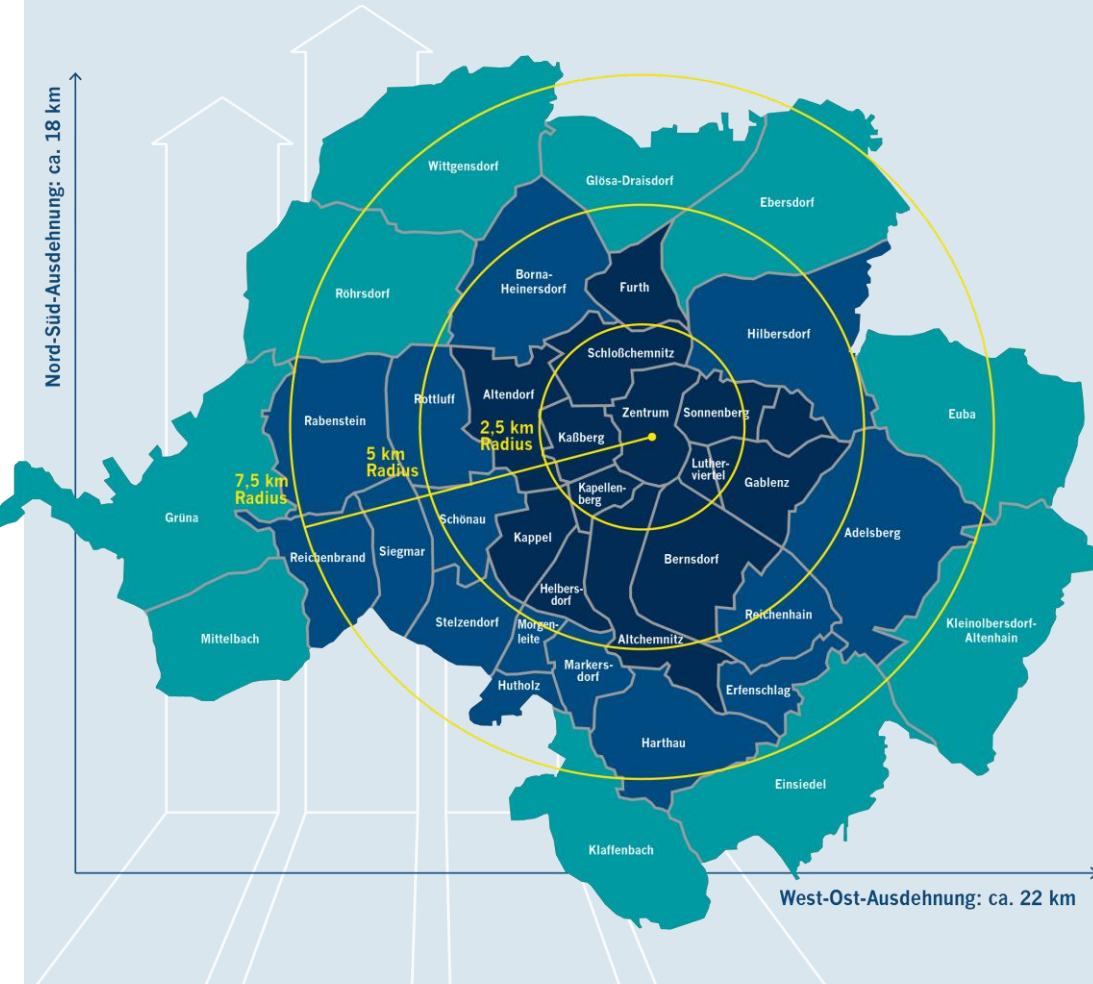

Chemnitz is compact and everything is just a short distance away.

Average journey time from the outskirts to the city centre:
Car 7.2 minutes

Public transport 17.6 minutes.

CHILDCARE

- A total of **227 facilities** run by the local authorities and independent organisations as well as family daycare
- Over **1,300 new crèche and kindergarten places** created since 2018
- Standard opening hours: **06:30 to 16:30**, 30 facilities until **17:00**, of which 7 until at least **19:00**
- **Care place available for every child**

85 SCHOOLS

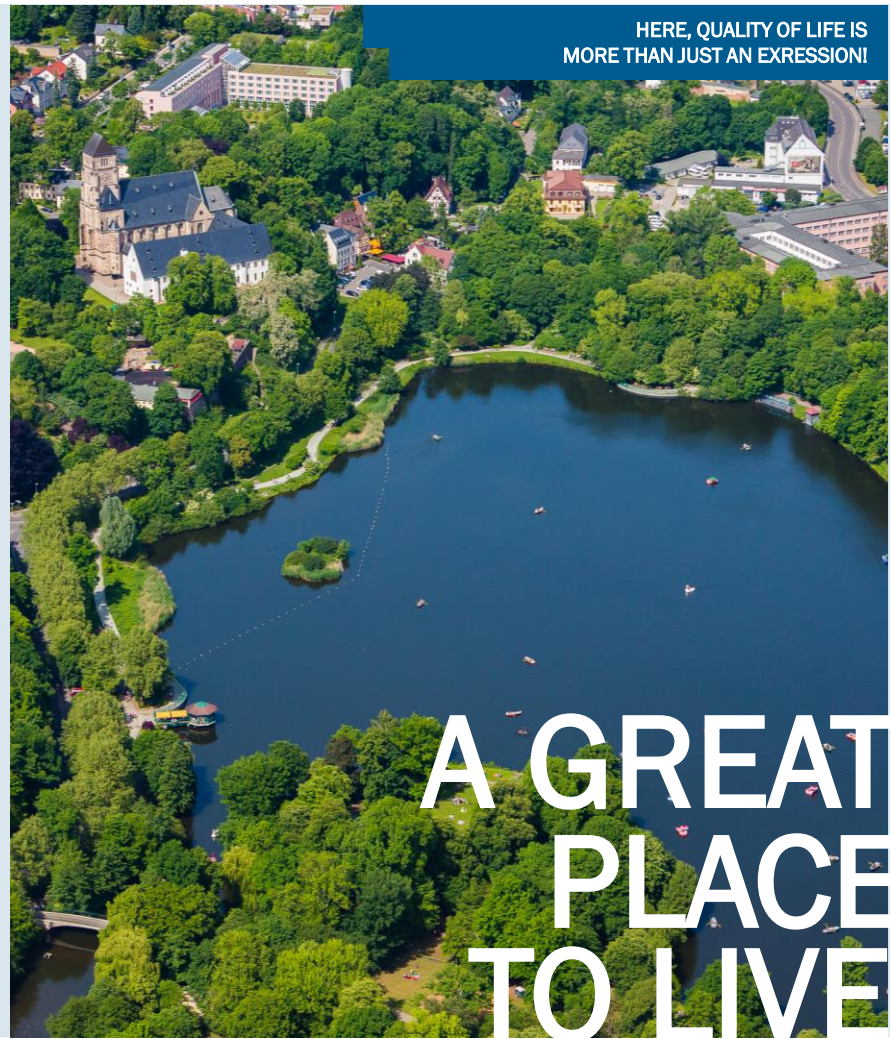

Public and private primary and secondary schools, grammar schools, special needs schools and vocational schools

- Short distances for short legs: Chemnitz offers primary schools **outside the city centre and in every district and part of the city**
- **Diverse school landscape**
- With its **“Digital Pact for Schools”**, the city ensures state-of-the-art learning conditions for all Chemnitz schools.

HERE, QUALITY OF LIFE IS
MORE THAN JUST AN EXPRESSION!

- Chemnitz offers each inhabitant **210 m² of sports, leisure, recreation and forest space.**
(2021/22)
- **A wide range of sports and leisure activities** thanks to a broad club and association landscape and independent cultural scene
- **Five-genre theatre** and a wide variety of museums
- **1,000 events per year** such as: Kosmos festival, street art “Hutfestival”, Light our Vision, Park Summer, wine festival

**A GREAT
PLACE
TO LIVE**

Art Collections on Theaterplatz

- Large collection of works by Karl Schmidt-Rottluff, born in Chemnitz

Museum Gunzenhauser

- One of the world's largest collections of works by Otto Dix

Henry van de Velde Museum

- Highlight on the European Henry van de Velde route

Chemnitz Theatre

- The only five-genre theatre in Saxony and one of the few in Germany

ART AND CULTURE

Chemnitz Museum of Industry

- Over 200 years of Saxon industrial history

“Schauplatz Eisenbahn” railway museum

- Largest, still functioning steam locomotive railway depot in Europe

Museum of Natural History

- 290 million-year-old petrified forest

smac – State Museum of Archaeology Chemnitz

- The former Schocken department store – an architectural icon of classical modernism by Erich Mendelsohn – illuminates the history of mankind from the palaeolithic age to the early industrial age with over 6,000 exhibits extending over three floors.
